

November 1933

Friday 17

Another fine day blowing a west wind but not much of a thaw but very mild. Frank went up to plaster the house at 3, the Birch high snow all gone off the hills.

Saturday 18

A fine mild day and blowing a strong west wind, the light thaw we have had a lot of snow went. I drove up to Frank's for dinner and then I went over to Willie for some what Mary and her little boy was here when I came back they came for a visit and will stay all night. The roads are pretty bad for sleighing.

Sunday 19

Cold and stormy blowing a cold North East wind. Willie came down for a visit. He drove Mary home in the buggy after dinner very cloudy and looks like snow this evening.
